U.S. EXPORT SALES

- Outstanding Export Sales
(Unshipped Balances)
On April 4, 1976
 - Export shipments in
Current Marketing Year
 - Daily Sales reported
April 5 - 13, 1976
- As Reported by Exporters

Outstanding export sales as reported by private exporters and compiled with other data in this release give a snapshot view of the current contracting scene. At any given time in the course of a marketing year outstanding sales do not bear a consistent relationship to eventual export shipments. A meaningful export projection is not obtainable by the simple device of adding outstanding sales to exports to date. The latter data, alone, may provide a more reliable measure of current export activity than may be derived from a year-to-year comparison of outstanding sales.

EXPORT SALES REPORT

Comments on release of April 15, 1976 (based on reports from exporters during the week ending April 4, unless otherwise noted):

NEW DEVELOPMENTS FOR GRAINS: Two main developments for grains in this week's report are (1) a total decline of over 200,000 metric tons (MT) in commitments of wheat, corn, and sorghum to East Germany and (2) a sizeable shift of wheat commitments from 1975/76 shipment to 1976/77 shipment.

Wheat: The apparent export commitment (cumulative exports plus outstanding sales) for 1975/76 declined by 227,700 MT, reducing the total commitment for the year to 29.6 million MT. New sales, mainly to Egypt, Spain, and Japan totaled 177,800 MT. In addition, there was a 47,000 MT increase in commitments to the USSR, reflecting transfers from optional origin rather than new sales. These new commitments for U.S. wheat, totaling 224,800 MT, were more than offset by decreases totaling 452,500 MT. These decreases included an apparent cancellation of 109,400 MT to East Germany, while the rest were mainly caused by shifts of commitments from sales for 1975/76 shipment to 1976/77. In other words, contracts and/or shipping schedules previously calling for shipment on or before June 30, 1976, have apparently been adjusted so that shipment is now expected to occur after June 30, 1976. These apparent forward shifts mainly involved commitments to India, Brazil, Israel, and the Dominican Republic.

In the last two weeks, total commitments for 1975/76 shipment to East Germany have fallen from 1.2 million MT to 926,800 MT.

Outstanding sales of wheat for shipment during the 1976/77 marketing year increased by a total of 365,000 MT, bringing the total to 2.0 million MT compared with 3.1 million MT for the corresponding period a year ago. As pointed out above, much of this increase was the result of shifts of commitments earlier expected to be shipped during the 1975/76 marketing year.

Feedgrains: The apparent export commitment for total feedgrains for 1975/76 shipment rose by 740,300 MT, bringing the total for the year to 35.1 million MT. Corn commitments advanced by 703,100 MT, of which 177,800 MT were increased commitments to the USSR (these increases largely reflect transfers from optional origin rather than new purchases by USSR authorities). New sales were largely responsible for the increase in corn commitments to Japan, 108,800 MT; the Netherlands, 134,100 MT; and Spain, 99,100 MT. These increases were somewhat offset by declines in commitments to East Germany and Mexico of 83,400 MT and 25,500 MT, respectively.

Sorghum commitments for 1975/76 shipment increased by 31,000 MT to total 4.4 million MT for the year. Commitments to Israel, Japan, and Poland increased by a total of 88,500 MT, but were partially offset by declines in commitments to East Germany of 25,400 MT and to unknown destinations of 32,000 MT.

Outstanding sales of corn for 1976/77 shipment increased by 206,200 MT, bringing total sales to date to 1.3 million MT, compared with 1.9 million MT a year ago at this time. Sales to Japan, the European Community (EC), and unknown destinations accounted for all of this week's increases.

Rice: The apparent export commitment increased by 14,700 MT, bringing the total for 1975/76 to 1.2 million MT. Higher commitments to Canada and Poland of 8,800 MT and 4,000 MT, respectively, represented this week's main increases in commitments; commitments to Zaire declined by 10,000 MT.

Soybeans: The apparent export commitment for 1975/76 increased by 88,900 MT, primarily reflecting increased commitments to the EC, the Soviet Union, Israel, and Japan. Commitments to Spain and unknown destinations declined by a total of 163,800 MT. Exports during the week totaled 406,700 MT, primarily to the EC, 239,400 MT; Japan, 67,900 MT; the USSR, 39,500 MT; and Spain, 23,000 MT.

Soybean Oilcake and Meal: The apparent export commitment for 1975/76 increased by 159,800 MT, primarily reflecting increased commitments to East Germany, France, Czechoslovakia, Hungary, and unknown destinations. Exports during the week totaled 124,000 MT, the largest weekly volume since early December 1975. Major takers were France, 37,500; East Germany, 20,100 MT; Hungary, 13,100 MT; West Germany, 10,000 MT; Czechoslovakia, 10,000 MT; and Spain, 9,600 MT.

Cotton: U.S. export sales were light during the week on small international demand. The United States was the only country offering current crop cotton in substantial quantities. The Republic of Korea, Japan, and Hong Kong took most of the U.S. cotton sold during the week.

Comparing Export of All Wheat and Wheat by Classes
as of March 28, 1976, for MY 1974/75 and MY 1975/76

All Wheat Exports

All wheat exports on March 28, 1976, show a 13 percent increase over the previous year, up 25.3 from 22.4 million metric tons. They increased significantly from last year to Economic Community, East Europe and the USSR. Exports to the USSR stand at about 4 million metric tons. Eastern Europe's 1975 wheat harvest was down about 14 percent. The slight chance of importing wheat from USSR along with their reduced crop has spurred the exports of U.S. wheat. Around 1.5 million metric tons has been shipped to this region compared with 126 thousand metric tons the previous year. The majority of the exports have been to Poland, the German Democratic Republic and Romania. The Economic Community's wheat crop was down in 1975 which resulted in the increased U.S. exports of 2.3 million metric tons compared with 1.7 million metric tons a year earlier. Most other importing areas were up slightly or about even with a year ago. Only other West Europe and Other Asia and Oceania showed a decline from last year.

Wheat Export by Classes

Hard red winter wheat increased by 8 percent from last year to a total of 12.5 million metric tons. The large increases in exports came from East Europe, USSR and the Western Hemisphere. In East Europe, East Germany and Poland were the major recipients of hard winter wheat. In the Western Hemisphere, Brazil was the largest importer followed by Peru and Chile.

White wheat exports rose 14 percent from the same date last year. India tripled imports of U.S. white wheat more than offsetting the declines of Iran, Iraq and the Republic of Korea. Exports to Iran are down to a trickle from the 986 thousand metric tons last year.

Soft red winter wheat's lower export price in comparison to other classes of wheat was major reason for almost a 13 percent export increase from the previous year. The largest increase came from India, Poland, Egypt, Italy and Bangladesh. India imported almost 1 million tons this marketing year while none was imported the previous year replacing the People's Republic of China as a customer for U.S. soft red winter. The P.R.C.'s good harvest year coupled with the long term wheat contracts with Australia and Canada significantly reduced their 1975/76 import requirements.

Exports of hard red spring wheat increased more than 28 percent from a year ago. Except for Japan, shipments to all other major regions were up from last year. The largest increases in exports were recorded to the Philippines, Netherlands, United Kingdom and Venezuela. The remaining countries generally showed at least a small increase over a year ago with only nine out of 43 countries importing less than last year.

Durum wheat export rose to 1.4 million metric tons from less than a million tons last year--up 47 percent. Algeria had the largest import increase, with over 400 thousand tons for MY 1975/76 from a year ago, followed by the Netherlands, East Germany, West Germany and Poland.
